AFTER BOOST DATA

BY THE STATE BUREAU OF LABOR STATISTICS.

TO ADVERTISE STATE

Every County Will Be Represented in This Year's Red Book, Which Will Be Issued Soon.

Commercial and business organizations of Missouri have been appealed to by the bureau of labor statistics in a letter issued by Commissioner John T. Fitzpatrick to assist in obtaining complete information covering manufactures in 1913. One of the features of the 1914 Red Book will deal with Missouri as a manufacturing center, fully indicating the strides the state has made by decades since 1850, and every year since 1909.

The feature of the 1914 Red Book, a publication which will be ready for distribution about March 15, is part one, which deals with the resources and opportunities offered by Missouri to farmers, dairymen, miners, fishermen, live stock raisers, manufacturers, and capitalists. This part, containing 700 pages, and fully 250 maps and illustrations, has been separately bound in cloth and paper, and an edition of 25,000 will be distributed March 10, 11 and 12 in Jefferson City, when the Missouri Federation of Commercial Clubs meets. Every county in the state has received its share of attention, and there are other separate articles minutely covering the business interests of St. Louis, Kansas City, St. Joseph, Joplin, Springfield, and every other city over 5,000 population. For each county there is a map, and illustrations portraying agricultural, manufacturing and mining conditions. Four maps show the cross state highways.

Several chapters give the history of the Missouri Federation of Commercial Clubs; the southwest Missouri commercial clubs, Farmers' Grange and other state-wide colonizing and developing associations. Other chapters deal with Missouri's topography, climate, soil, rainfall and rivers and streams; the annual production of the state's staple crops; annual live stock output of Missouri; complete facts covering farming, dairying, orcharding and mining lands which are on the market; agricultural possibilities of Missouri; Missouri farm statistics; opportunities in Missouri for agricultural settlers; stock raising, orcharding and dairying in the Ozarks; good roads crusade of the state; annual mineral products of Missouri; annual poultry production; mineral resources and annual outputs; health and summer resorts, and information of the values and qualities of Missouri mineral waters; products for which Missouri holds first rank; Missouri as a cotton state; annual lumber output, and fully two hundred other topics.

For eight years the bureau has been the publicity agent of the state of Missouri, and it will continue the work on a wider scale this year. The practice of issuing a weekly bulletin covering Missouri's resources, advantages and opportunities was inaugurated by Supervisor of Statistics A. T. Edmonston in 1905 and has been kept up since. These bulletins are not alone handled by Missouri newspapers but are also partly published in the great dailies of New York, Philadelphia, Boston, Chicago and other large cities, as well as a large number of weekly and monthly papers.

Card of Thanks.

Mrs. Rebecca Brink and grandsons, Ernest, George, Vern, Ralph, Harold and Leonard Moore, wish to express their sincere gratitude to their neighbors and many friends who were so kind and thoughtful toward them during the illness of their son-in-law and father, John L. Moore. And they especially remember the many kind words when death came, and the beautiful offerings of flowers in their sorrow. May God bless you all is our prayer.

Moving to Texas.

Mrs. W. B. Beadle left Tuesday evening for Hereford, Texas, to make her home. Mr. Beadle left Monday with the household goods.

A TEMPORARY POULTRY HOUSE.

For \$10 Renters May Erect a Structure Easily Taken Down.

Renters and others who may wish to vary the location of their poultry yards often find it desirable to erect temporary poultry houses—houses that are inexpensive, easily set up and easily taken down, and the wreckage of which may be sold for something. A house twelve by eight feet, six feet high in front and five at the back, may be made at a cost of not more than \$10, not including labor, and will meet all conditions. The man of the house, if he is at all handy, can do the work usually in a day. The house can be wrecked in a few hours and the wreckage is usually salable for about three dollars.

The house I am describing has a framework of 2x4 pieces. Over this is stretched a network of woven wire fencing, and on the outside of this ordinary tarred paper is fastened securely with lath.

This house has ten 2x4 posts placed four feet apart and set one foot in the ground. The four front posts are cut from 4-foot and the back ones from 12-foot sticks. The posts at the middle of each end are cut out of a 14-foot stick and are sawed off to line with the adjacent corner posts. To the top of these posts is spiked a 2x4 plate, the end plates serving also as rafters. Two additional rafters are placed, making four in all.

Stays of the 1x4 material are set in between the posts, one, of course, at the bottom and one three feet higher. Two rows of stays are set also in between the rafters, so spaced as to provide side supports for each breadth of fencing. Placing stays in this manner on both sides and roof provides an edge support for the fencing and keeps it from sagging.

Stretch the woven wire fencing round the frame, stapling it to the posts and the stays. If it overlaps a little, so much the better. Omit the wire from the space at one of the front corners—that is, omit stretching it across and tacking it to the corner post. It may be brought just to the corner and cut off. This wire and opening will serve for a door. In like manner stretch wire across the rafters, running the strips lengthwise of the house.

Fasten the tarred paper over the framework outside the wire and secure it firmly by nailing lath on the posts and the stays. Do not be sparing in the use of lath. If the entire length of the posts, stays and plates is thus stripped there is little danger that the paper will be blown off by the wind.—E. V. Laughlin in the Country Gentleman.

MEET SATURDAY

TO FORM COUNTY POULTRY ASSOCIATION.

IS MISSOURI HEN DAY

Purpose of Organization Is to Promote the Poultry Industry in All of Its Branches.

Missouri hen day is Saturday, March 7, and on this day a meeting will be held in the court house in this city at 2 o'clock in the afternoon for the purpose of organizing a county branch of the Missouri State Poultry Association. Judge J. H. Saylor has been chosen by the state association as temporary president, and will call the meeting to order. The purpose of the organization is to promote the poultry industry in all its branches in this county in every possible way, and especially by co-operating with the state association and the state poultry experiment station at Mountain Grove.

The organization to be perfected will be composed of a president, a vice president from each township in the county and a secretary-treasurer. The annual meeting will be held at the same time as the county poultry show. The dues are 50 cents a year and each member will receive the monthly bulletin of the experiment station.

Branch organizations are to be perfected in one hundred of the one hundred and fourteen counties in the state on Saturday, and this will certainly mark a new era for the poultry industry of Missouri.

Everybody interested in poultry is invited to attend the meeting Saturday.

SMITH HEADS THE ELKS.

The Other Officers Selected at Their Annual Election Held Tuesday Evening.

The annual election of the Elks lodge was held Tuesday evening at the club house and was the best attended election yet held by that lodge. There were 127 members in attendance.

There was a spirited contest for the place of exalted ruler, Wilbur C. Smith being elected over Dr. Jesse Miller by a close vote to head the lodge during the coming year. W. H. Allen was selected as exalted ruler.

There were only three Democrats in the legislature, but this little band fought desperately for an investigation of Senator Warren's career. Needless to say the overwhelming Republican majority promptly suppressed all attempts of this character, and Mr. Wood incurred the undying enmity of Senator Warren.

At the unanimous request of his party, Mr. Wood consented to stand as a candidate for member of the twelfth legislature.

His handsome majority in this formerly Republican district, and his determined fight to prevent the re-election of Senator Warren are events of recent history. The people of Crook county have implicit confidence in the honesty and integrity of W. J. Wood, and the opposition to himself which he has created in certain quarters only endears him the more to their hearts, because they realize that every political enemy he has made has been made in his hard fight for better political conditions in Wyoming.

To quote a phrase once used in eulogy of Grover Cleveland: "We love him for the enemies he has made."

CLOSING OF TERM

WINTER TERM WILL CLOSE ON FRIDAY, MARCH 6.

SPRING TERM MONDAY

Commencement Exercises on May 26—President Richardson Back From Educational Meetings.

The winter term of the Normal school will close on Friday after a most successful session. The spring term will open on Monday, and the indications are that there will be a large enrollment.

With the closing of the winter term there are two graduates who have to be approved by the Normal board of regents, and who will receive their diplomas at the commencement exercises to be held at the close of the spring term. The baccalaureate sermon will be given on Sunday, May 24, and the class exercises on Monday, May 25, and the commencement exercises at the Normal auditorium on May 26. The close of the spring quarter is May 28.

President Ira Richardson returned Saturday from a trip to St. Louis, Chicago and Richmond, Va., where he attended educational meetings. At a meeting held in St. Louis Monday by a committee to take charge of the elementary school problem, it was decided to visit the city and rural schools and study their conditions within the next few months. The committee agreed that the elementary schools need better trained teachers and more of them. An expert will visit each district, who will make a survey of the teaching staffs, and will find what improvements are needed.

FOR AN OFFICIAL "ROOSTER DAY"

T. E. Quisenberry Would Set Aside June 6 to Swat Chanticleers.

"Rooster day," June 6. That is to be Missouri's newest holiday if T. E. Quisenberry, director of the Missouri state poultry experiment station, has his way.

Mr. Quisenberry's motto is "swat the rooster." He will present a resolution to the Carlot Buyers' association asking Governor Major to set aside the first Saturday in June as "Rooster day." Missouri already has a "Hen day," March 7, when the conservation of that fowl is supposed to be studied.

On "Rooster day" the farmers and poultry dealers will be urged to kill, sell or separate the roosters from their flocks. "Absolutely millions of dollars' worth of eggs are spoiled every summer because they are fertile," Mr. Quisenberry said in his address on how to improve Missouri eggs and poultry. Hence his purpose in establishing a "Rooster day."

He gave these five rules, which he said, if followed, would increase the selling price of Missouri eggs several million dollars every year: Give the hens clean nests and plenty of them; gather eggs at least twice daily; keep eggs in a cool place; market eggs at least twice a week in warm weather; kill or sell all roosters as soon as the hatching season is over.

Left for Hot Springs.

Mr. and Mrs. E. A. Johnson and son of Colorado Springs, Col., who have been visiting for ten days in Maryville with Mr. Johnson's father, James M. Johnson, left Tuesday evening for Hot Springs, Ark., for a stay.

Walter Walker of near Skidmore was in the city Tuesday and took his wife home. She was operated on at St. Francis hospital for cancer.

TO GIVE A CONCERT.

Ravenwood Orchestra to Render Program at Opera House in That Town on Friday.

The Ravenwood orchestra will give a concert Friday night of this week at the opera house in Ravenwood. They have a good line-up of music, such as the sextet from "Lucia di Lammermoor," "Love's Enchantment," etc. They have secured two quartets to assist them, a ladies' quartet and a male quartet. These two organizations have been highly praised wherever they have appeared before the public.

The following is the program for the concert:

March, King Sol—Orchestra.
Waltz, You Were All I Had—Orchestra.

Cornet solo, Asleep in the Deep—H. T. McMullin.

A SERIOUS ATTACK

L. SLAGLE BADLY INJURED BY E. AND R. H. LAWSON.

THE CAUSE OF TROUBLE

Mrs. Slagle Stated That Her Husband Purchased Corn That Was Unfit For Use and Refused Some of It.

Lucien Slagle, a young farmer living three miles southeast of Ravenwood, was attacked Tuesday forenoon about 11 o'clock at his home by two other young farmers, E. E. and R. H. Lawson. One of the farmers, R. H. Lawson, is a neighbor of Mr. Slagle, living a mile distant.

Mr. Slagle was so badly injured that he was brought to St. Francis hospital Tuesday evening on the Wabash train. He was accompanied by Dr. D. J. Hunterson of Ravenwood, Mrs. Slagle and her father, and Andy Slagle. Dr. G. A. Nash, Dr. F. M. Ryan and Dr. Hunterson dressed the man's wounds. His right jaw bone was fractured in two places and he was badly bruised from his chest to the top of his head. It is the opinion of the physicians that were called that brass knucks were used in the fight.

Several stories are told as to the probable cause of the trouble. The story given to The Democrat-Forum by Mrs. Slagle is that her husband agreed some three or four weeks ago at a sale held by the Lawsons, to buy a certain amount of corn they offered if it proved good as was represented. Mr. Slagle went after a load of the corn and brought it home. He found about half of it decayed and unfit for use, but as he was in need of corn for his horses he picked out what was good and began to look elsewhere for corn. He was approached by the Lawsons in the matter and he informed them that he could not take any more of the corn because it was not good. He offered a check for the wagon load he had taken, and the Lawsons refused to take it. Mrs. Slagle feared trouble and stationed herself at the window of their residence to watch them, especially after the arrival of E. E. Lawson, who lives five or six miles from their home. He arrived about an hour after his brother came. She could not see her husband very well as he was standing on the other side of the Lawson wagon, but when the two men sprang from the wagon and the men clinched, she ran from the house to her husband's assistance. As she ran screaming around the wagon she found her husband lying on the ground. She knew by his appearance that he was badly hurt. She asked the Lawsons to run and phone for a doctor, but they told her she need not make such a fuss, that her husband was not badly hurt. Then she asked them to help her get him in the house, but they got into their wagon and drove off. Mrs. Slagle assisted her husband into the house, and when about half way there the hired man, attracted by her screams, came to her assistance. After Mr. Slagle was safe in the house the hired man phoned for Dr. Hunterson, who came as soon as possible. Dr. Hunterson then summoned Dr. W. P. Stuckle of Clyde, and the two dressed his wounds temporarily and phoned to the Maryville physicians concerning the case and to be ready to care for him that evening at the hospital in Maryville.

The Maryville physicians think that Mr. Slagle will make a good recovery from his injuries unless pneumonia sets in. His chest was badly bruised up.

Another story as to the cause of the trouble is that Mr. Slagle secured a lease on the farm that E. E. Lawson had been living on and was wanting it for another year.

PICKERING WOMAN DEAD.

Mrs. Oliver Rickard Died After a Three Years' Illness—Funeral Arrangements Not Made.

Mrs. Oliver L. Rickard, living one and a half miles east of Pickering, died Wednesday noon at the family home after a three years' illness of a complication of diseases. The funeral arrangements have not been made.

Mrs. Rickard was born August 11, 1864, on a farm east of Pickering. Her maiden name was Nannie Belle Hewitt. Her father, W. J. Hewitt, was a pioneer resident of Nodaway county. His death occurred six years ago. Mrs. Rickard was married to her husband January 18, 1881, at Pickering. For five years following their marriage they lived at Centralia, Kan., but since that time they have lived in Pickering.

Mrs. Rickard became a member of the M. E. church when she was 15 years old, and lived a consistent Christian life. She was the mother of eleven children, seven of whom are living. They are J. E. and Marion L. Rickard and Mrs. George Swany of Pickering; Hazel Mildred, LaVerne, Roland and Brice Rickard, at home with their father. Her mother, Mrs. Rebecca Hewitt of Pickering, six sisters and three brothers also survive.

Mrs. B. F. Bailey left Tuesday evening for Blue Mound, Kan., to make her home. Mrs. Bailey has been visiting here with her sisters, Mrs. Frank Knabb and Mrs. Harry Hudson. Her home has been at Clark, Neb.

O. O. Wallace and family of Kellart, Ia., will come to Maryville Wednesday evening on a visit with Mr. Wallace's parents, Mr. and Mrs. John Wallace. Mr. Wallace has been station agent at Kellart for some time.

All-Clare, L. O. Staples, Sam Jones, Frank and James Ware and Edwin Colwell of Burlington Junction were Maryville visitors Wednesday.

Mark Cummings left Wednesday morning for Bonner Springs, Ark.

Aaron Felix attended the Alexander sale at Orsburg Wednesday.

CALLS IT KINGDOM OF SHERIFF JEFF FARR

Witness So Characterizes Huerfano County, Colorado.

Walsenburg, Colo., March 4.—The strike investigation in Huerfano county was held here.

Counsel for the strikers called Fred R. Hennes to describe mine conditions which were alleged to have entered into the cause of the strike. He said he had had long experience as a miner; that in the last ten years the companies steadily reduced the amount of work for which pay was allowed. He declared that while he was superintendent of a mine that a weigher employed by the company's president was cheating the diggers.

On questions by Hynes, the witness admitted he had known the weigher was robbing the men, but did not discharge him until he found he also was robbing the company.

Sheriff Jefferson Farr heard Huerfano county described as "The Kingdom of Jeff Farr." Major C. P. Coan, a pioneer lawyer and farmer of Huerfano county, was the witness whose testimony focused the attention of the committee upon the charge of political interference by coal operators.

The witness said he believed the county was under the control of the Colorado Fuel and Iron company.

When the witness used the term "The Kingdom of Jeff Farr," Judge J. C. Northcutt for the operators asked: "Did you ever hear anybody but your self so characterize Huerfano county?" "I think I heard you so characterize it," flashed the witness.

30 YEARS FOR STEALING KISS

Negro Assailant of White Girl Is Given Limit.

Los Angeles, March 4.—Convicted of robbery for having stolen a kiss from a white girl, Charles H. Gayton, a young negro, was sentenced to thirty years in Folsom prison by Judge Willis of the criminal department of the superior court.

The charge on which the negro was tried alleged that he held up Miss Daisy Stagwall and relieved her of a dime, all the money she possessed. Then he compelled her under threat of death to kiss him, after which he gave back her 10 cents.

Guyton was alleged to have subjected six other white girls to similar treatment. When he pleaded for probation for the sake of his wife and children, Judge Willis cut him short with the declaration that such a man was too dangerous to be allowed at large.

DO NOT BE MISLEAD

YOU know tone and quality when you hear it, and no man can assume that he knows it all, and can make YOUR decision as to what Talking Machine YOU should buy.

There are more Victrolas in the best homes of Maryville than there are of any other make. Why? Because Maryville people are musical. They know fine tone quality when they hear it. They know that the Victrola is the only Talking Machine that receives recognition and endorsement of people of refined musical taste and of the leading musicians of the world—they know that Caruso, Melba, Tetrazzini, Farrar, Amato, and all other leading artists of the world make records EXCLUSIVELY for the Victor. Why? Because they want their renditions recorded in the most perfect manner, for it is by these records that they are judged, more than by their OPERATIC APPEARANCE.

Call and let us show you the Victrola. When you once appreciate what it will bring to your home, that it will last a life-time, that they can be purchased on such reasonable prices and terms, you would not be without one. We have Victrolas from \$15.00 to \$200.00

GRAIN BOARDS ARE SCORED

Greeley Says They Are Too Used to Fix Price of Wheat.

URGES FEDERAL ACTION TAKEN

Congressman Says Elevator Men Sell to Themselves Grain Which They Hold as Agents for Farmers, Defrauding Growers Out of Millions.

Washington, March 4.—Samuel H. Greeley, for more than twenty years a member of the Chicago board of trade, speaking on Representative Manahan's resolution to authorize an investigation of the charges that a monopoly existed within the grain exchanges of Chicago, Duluth and Minneapolis, founded upon warehouse operations and future trading, characterized the Chicago board of trade as a "giant of fictitious wheat transactions" and the weapon of a price-controlling monopoly. Appearing before the house rules committee in behalf of several wheat growers' organizations of the northwest, Mr. Greeley urged federal action against an alleged monopoly maintained by the public warehouse men of Chicago and other market centers.

Through members on the Chicago board and control of the storage of grain, the warehouse "trust," he declared, had built up an organization "which controls the wheat prices of the world more than any other agency, except war scares and financial panics."

The key to the situation was dealing in futures, where no delivery was intended, he declared, and in this business the Chicago board of trade outstripped the other markets of the world combined.

Evidence was submitted to the committee designed to show that the warehouse "trust" began business in 1887, and had steadily increased in power until today the Chicago board was "throttled and controlled by the public warehouse men."

Change in Rules.

Mr. Greeley read into the record a recent change in the rules by the board removing certain penalties prescribed against warehouse members. This, he said, was done at the order of the warehouse men's combination.

It was said that if the hearings bring out sufficient evidence the subject probably will be referred to the committee on agriculture, with recommendations that it draft legislation to remedy the alleged evils.

Mr. Manahan charged that elevator men, by selling to themselves grain they held as agents for farmers, defrauded the wheat growers of the Dakotas and Montana alone of \$10,000,000 a year.

SUFFRAGISTS WARN DEMOCRATIC PARTY

Women Throw Down Gauntlet to House Committee.

Washington, March 4.—The house judiciary committee heard all phases of the woman suffrage question discussed by suffragists and anti. The war of words was accompanied by cheers, jeers, hisses and applause.

Deserting sentimental phases of the suffrage argument, Mrs. Crystal Benjamin Benedict and Mrs. Mary Beard, New York lawyers, threw down the gauntlet to the Democratic party in no uncertain terms, warning the committee that the political wrath of the 4,000,000 women in the suffrage states would be visited upon the party unless favorable consideration was given the constitutional suffrage amendment.

Anti-suffragists told the committee that woman suffrage would be harmful "not only to women, but to the country." And at the conclusion of the hearings Dr. Mary Walker, trousered and silk-hatted, presented to the committee what she called "the crowning constitutional argument" to show that women already have the right to vote under the constitution.

In the meanwhile a late on the suffrage amendment was continuing in the senate.

CATARRH VICTIMS

Use Hyomei—You Breathe It.

It's the right-to-the-point remedy not only for catarrh, but for head colds, sniffles, bronchitis, laryngitis or croup of children. You breathe it—no stomach dosing.

You will like Hyomei. It not only gives instant and lasting relief, but is entirely harmless, pleasant to use, and economical. Money refunded by the Grear-Henry Drug Co. if you are not benefited.

Hyomei is a combination of antiseptic oils that mixes with the air and quickly reaches the irritated and inflamed membrane of the nose. It's sure and safe healing begins immediately—you feel better at once.

If suffering from watery eyes, husky voice, discharge from the nose, or that choked-up feeling, try Hyomei now—today. All druggists sell it. Ask for the complete outfit.—\$1.00 size.

SEE IF THE CHILD'S

TONGUE IS COATED

Mother! Don't Hesitate! If Cross, Feverish, Constipated, Give "California Syrup of Figs."

Look at the tongue, mother! If coated, it is a sure sign that your little one's stomach, liver and bowels need a gentle, thorough cleansing at once.

When peevish, cross, listless, pale, doesn't sleep, doesn't eat or act naturally, or is feverish, stomach sour, breath bad; has stomach ache, sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again.

You needn't coax sick children to take this harmless "fruit laxative;" they love its delicious taste, and it always makes them feel splendid.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeits sold here. To be sure you get the genuine, ask to see that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.—Advertisement.

members of the Circle. The devotional service was led by Mrs. Charles McNeal. Roll call was responded to with names and facts of "Pioneers of Maryville," that proved quite interesting. As two members were unable to respond with their papers at this time some good readings were given. Mrs. Cook, the hostess, read a splendid story of "The Titanic," from its building until its destruction. A reading by Mrs. M. D. Kemp on "Modern Education," an account of a grandmother's visit to the school attended by her young granddaughter, was excellent, and she was prevailed upon to respond with an encore number, "Slippers for the Footless Minister," after the delightful luncheon was served. The president, Mrs. W. O. Garrett, conducted a very interesting round table discussion on Maryville's advancement and improvement since the beginning of the M. I. Circle.

TO ADDRESS CONGRESS

Wilson Will Make Plea for Repeal of
Tolls Exemption.

Washington, March 4.—President Wilson will personally address a joint session of congress tomorrow, advocating the repeal of the clause in the Panama canal act which exempts American coastwise shipping from the payment of tolls.

White House officials arranged with the majority leaders in both houses for a joint session at 12:30 p. m. tomorrow. The president has prepared a brief address in which he sets forth his opinion that congress should reverse itself and keep the obligations of the Hay-Pauncefote treaty, which, he believes, were violated by the Panama canal act.

SEEK TO FREE 5,000 FEDERALS

Habeas Corpus Writ to Be Used
to Liberate Refugees.

ARE HELD WITHOUT WARRANT

Lawyers Acting for Mexicans Interned at Fort Bliss Will Approach State Department Before Beginning Court Proceedings.

El Paso, Tex., March 4.—Representatives of the Huerta government are preparing to institute habeas corpus proceedings to obtain the liberation of the 5,000 Mexicans who fled to the United States after the battle of Ojinaga, and who are interned at Fort Bliss. They contend that there is no warrant of international law or treaty under which they can be held.

Harris Walthall and H. R. Gamble, lawyers, are acting for the Huerta government under the immediate direction of Miguel E. Diebold, Mexican consul general at large.

"I assume the clause on which these Mexicans are being held is the one in The Hague treaty which states that if a group of belligerents from one country warring with another takes refuge in a third, the third country must intern them for the period of the war," said Mr. Walthall.

"The United States and Mexico are signatories to the treaty, but that instrument contains no reference to a situation like the present, where the conflict is internal. Mexico is not at war with any other country, and yet that was the only contingency foreseen by the authors of The Hague treaty."

"Before going into court we will approach the state department on the subject. If we fail there we will apply for a writ of habeas corpus, for that right is suspended only in time of war or where martial law has been declared. Neither condition exists here."

Grey's Speech Chief Factor.

Washington, March 4.—Great Britain's pronouncement through Sir Edward Grey that the United States was in no way responsible for the recent execution at Juarez of William S. Benton, a British subject, and that the American government would not be asked to resort to force as a result of the incident was the chief factor in the Mexican situation.

President Wilson, in a conference with Sir Cecil Spring Rice, the British ambassador here, and Sir Lionel Carden, the British minister to Mexico, is understood to have expressed his approval and appreciation of the friendly sentiments uttered by the British foreign secretary in the house of commons. Tension which had been felt here over the killing of Benton arose largely because it was believed Great Britain might press the United States into taking drastic steps to secure reparation.

The British view that the United States is not obligated to demand reparation for Great Britain relieved this tension to some extent, although it is clear that the Benton incident has developed an intention on the part of the American government to take a more aggressive attitude toward the contending factions in Mexico.

Cañanza Appoints Investigators.

Nogales, Sonora, March 4.—A commission to investigate the Benton case was appointed by General Cañanza. The decision was taken after a long session of the provisional cabinet.

One Man's Earnings Never Make a Millionaire

BEGINS RACE WITH DEATH

Stricken Millionaire on Special Train
Bound for Rochester, Minn.

Los Angeles, March 4.—In a race with death, C. W. Post, millionaire manufacturer of Battle Creek, Mich., passed through here in a special train bound for Rochester, Minn., for an immediate major surgical operation. He was accompanied by Mrs. Post and a physician who attended him at his winter home at Santa Barbara.

Mr. Post arrived at Santa Barbara a month ago broken in health. His condition steadily grew worse and attending physicians declared his only hope lay in an immediate operation. Doubt was expressed, however, that he could survive the trip to Rochester.

Mrs. E. J. Williams visited in Pickering Wednesday afternoon with her mother, Mrs. Solomon Clark.

Mrs. G. W. Turner left Tuesday morning for a visit in Kansas City, after which she will go to Sayre, Okla., on a visit to her son, W. B. Turner, and Mrs. Turner.

INDIGESTION OVERCOME.

Overcome by Simple Remedy.

Hurried and careless habits of eating, irregular meals and foods that do not harmonize, tend to weaken the digestive organs and result in different forms of stomach trouble.

If you are one of the unfortunates who have drifted into this condition, eat simple foods only, slowly, regu-

larly and take Vinol, our delicious cod liver and iron tonic.

Mrs. H. J. Smith, Thomasville, Ga., says: "I suffered from a stomach trouble, was tired, worn out and nervous. A friend advised me to take Vinol. My stomach trouble soon disappeared and now I eat heartily and have a perfect digestion and I wish every tired, weak woman could have Vinol, for I never spent any money in my life that did me so much good."

The recovery of Mrs. Smith was due to the combined action of the medicinal elements of the cod's livers—aided by the blood making and strength creating properties of tonic iron, which are contained in Vinol. We will return the purchase money every true Vinol fails to benefit. Orear-Henry Drug Co., Maryville, Mo.—Advertisement.

The OVERLAND is the BEST CAR for the AMERICAN FARMER

Here's a car practically designed for the American farmer. It meets his needs as exactly as if it were made to sell to him alone.

Dependability under all conditions. Strength to meet every reasonable emergency. These are the qualities the farmer must have. His remoteness from town and the roughness of country roads demand it.

These are also the qualities which stand out predominant in the Overland Car.

This is no idle claim. Remember—back of the Overland Automobile lie ten years of success—ten years of growing prestige.

Its name and fame must be familiar to you. You must know at least one Overland owner. (There are 100,000 users now.) Put the question to him.

To strength and dependability—add economy.

Economy in price because you pay \$350 for a \$1,250 car.

Economy in operation. No car could be less greedy of gasoline and oil.

There is a reason for all this—a reason to be found in the spirit of the men behind the Overland Car.

A spirit that demands a perfect motor car, but also that this perfect car be made on so big a scale that it can profitably be sold at a low price.

This is why, added to the practical qualities of strength, durability, economy, you get a car second to none for Beauty.

Roomy—rich—magnificently upholstered, finished like a piano. Every accessory the best possible for its purpose.

Ask any experienced motorist if these specifications do not match those of any \$1250 car.

SPECIFICATIONS Overland Model 79

Motor. Four cylinders, cast singly and set 9-16 inch off center; bore, 4 1/4 inches, stroke 4 1/2 inches; developing 35 horsepower at normal speed.

FEDS PREPARED TO FIGHT

Gilmore Warns Tener and Johnson to Leave Men Alone.

Chicago, March 4.—Word was sent to the presidents of the National and American baseball leagues that the Federal league was prepared to fight for fair treatment and would meet in kind any efforts to lure away players who had a contract with the new league.

In a telegram addressed to John K. Tener, president of the National league, and to Ban B. Johnson, head of the American league, President Gilmore of the Federals threw down the challenge which may result in another baseball war. The message read:

"Indisputable evidence tells us that some of your clubs are endeavoring to sign Federal league contract players. If you do not stop such methods immediately we will withdraw our policy of fair play and give you a battle at your own game."

ZANG HELD WITHOUT BAIL

Slayer of Alleged Murderer Bound Over to Grand Jury.

St. Louis, March 4.—Henry Zang, who shot and killed Wesley (Red) Simon three hours after the latter was put on trial for a murder of another gangster, was bound over to the grand jury by the coroner's jury, which heard Zang's own story of the shooting.

Before the inquest was opened each of the 350 spectators was searched for weapons by policemen on hand to prevent another killing.

Zang will be held without bail pending the action of the grand jury.

Butter Trust Case Goes Over.

Chicago, March 4.—Hearing of the Elgin board of trade case before Judge Landis in the federal court here may never come up. District Attorney James H. Wilkerson left for New York and Washington and it was understood the question of a compromise of the government's case against the alleged improper butter price fixing methods of the Elgin board was the principal object of his trip. The hearing was continued two weeks.

We are now ready for your spring work. Phone me your order. A. D. Arnett.

Facts About Western Canada

The farmer of today is recognized as a business man and puts himself on the pay roll at a salary beyond the dreams of the average man in the city, and he pays dividends on his investment.

Nowhere is he in a better position to realize the full profit of this condition than in Western Canada, with the rich productive soil at small cost and splendid markets; realizing from 40 to 100 per cent on his investment and obtaining the independence that cannot belong to any other business man.

The 433,000,000 bushel grain crop of Saskatchewan and Alberta yielded \$235,000,000 to the farmers last year. This represents the partial yield of less than 15 per cent of the available land under cultivation. Millions upon millions of acres of the finest arable land in the world awaits the plough—YOUR PLOUGH.

The annual increase in the world's population establishes an ever-growing market, and nowhere can you find more ideal conditions for grain raising than Western Canada affords. Grain growing, however, is but one item in the success of the Canadian farmer.

Our first excursion to this country of opportunity will be April 7th. For rates and terms see

AFTER BOOST DATA

BY THE STATE BUREAU OF LABOR STATISTICS.

TO ADVERTISE STATE

Every County Will Be Represented in This Year's Red Book, Which Will Be Issued Soon.

Commercial and business organizations of Missouri have been appealed to by the bureau of labor statistics in a letter issued by Commissioner John T. Fitzpatrick to assist in obtaining complete information covering manufactures in 1913. One of the features of the 1914 Red Book will deal with Missouri as a manufacturing center, fully indicating the strides the state has made by decades since 1850, and every year since 1909.

The feature of the 1914 Red Book, a publication which will be ready for distribution about March 15, is part one, which deals with the resources and opportunities offered by Missouri to farmers, dairymen, miners, fishermen, live stock raisers, manufacturers, and capitalists. This part, containing 700 pages, and fully 250 maps and illustrations, has been separately bound in cloth and paper, and an edition of 25,000 will be distributed March 10, 11 and 12 in Jefferson City, when the Missouri Federation of Commercial clubs meets. Every county in the state has received its share of attention, and there are other separate articles minutely covering the business interests of St. Louis, Kansas City, St. Joseph, Joplin, Springfield, and every other city over 5,000 population. For each county there is a map, and illustrations portraying agricultural, manufacturing and mining conditions. Four maps show the cross state highways.

Several chapters give the history of the Missouri Federation of Commercial clubs; the southwest Missouri commercial clubs, Farmers' Grange and other state-wide colonizing and developing associations. Other chapters deal with Missouri's topography, climate, soil, rainfall and rivers and streams; the annual production of the state's staple crops; annual live stock output of Missouri; complete facts covering farming, dairying, orcharding and mining lands which are on the market; agricultural possibilities of Missouri; Missouri farm statistics; opportunities in Missouri for agricultural settlers; stock raising, orcharding and dairying in the Ozarks; good roads crusade of the state; annual mineral products of Missouri; annual poultry production; mineral resources and annual outputs; health and summer resorts, and information of the values and qualities of Missouri mineral waters; products for which Missouri holds first rank; Missouri as a cotton state; annual lumber output, and fully two hundred other topics.

For eight years the bureau has been the publicity agent of the state of Missouri, and it will continue the work on a wider scale this year. The practice of issuing a weekly bulletin covering Missouri's resources, advantages and opportunities was inaugurated by Supervisor of Statistics A. T. Edmonston in 1905 and has been kept up since. These bulletins are not alone handled by Missouri newspapers but are also partly published in the great dailies of New York, Philadelphia, Boston, Chicago and other large cities, as well as a large number of weekly and monthly papers.

Mrs. W. B. Beadle left Tuesday evening for Hereford, Texas, to make her home. Mr. Beadle left Monday with the household goods.

A TEMPORARY POULTRY HOUSE.

For \$10 Renters May Erect a Structure Easily Taken Down.

Renters and others who may wish to vary the location of their poultry yards often find it desirable to erect temporary poultry houses—houses that are inexpensive, easily set up and easily taken down, and the wreckage of which may be sold for something. A house twelve by eight feet, six feet high in front and five at the back, may be made at a cost of not more than \$10, not including labor, and will meet all conditions. The man of the house, if he is at all handy, can do the work usually in a day. The house can be wrecked in a few hours and the wreckage is usually salable for about three dollars.

The house I am describing has a framework of 2x4 pieces. Over this is stretched a network of woven wire fencing, and on the outside of this ordinary tarred paper is fastened securely with lath.

This house has ten 2x4 posts placed four feet apart and set one foot in the ground. The four front posts are cut from 4-foot and the back ones from 12-foot sticks. The posts at the middle of each end are cut out of a 14-foot stick and are sawed off to line with the adjacent corner posts. To the top of these posts is spiked a 2x4 plate, the end plates serving also as rafters. Two additional rafters are placed, making four in all.

Stays of the 1x4 material are set in between the posts, one, of course, at the bottom and one three feet higher. Two rows of stays are set also in between the rafters, so spaced as to provide side supports for each breadth of fencing. Placing stays in this manner on both sides and roof provides an edge support for the fencing and keeps it from sagging.

Stretch the woven wire fencing round the frame, stapling it to the posts and the stays. If it overlaps a little, so much the better. Omit the wire from the space at one of the front corners—that is, omit stretching it across and tacking it to the corner post. It may be brought just to the corner and cut off. This wire and opening will serve for a door. In like manner stretch wire across the rafters, running the strips lengthwise of the house.

Fasten the tarred paper over the framework outside the wire and secure it firmly by nailing lath on the posts and the stays. Do not be sparing in the use of lath. If the entire length of the posts, stays and plates is thus stripped there is little danger that the paper will be blown off by the wind.—E. V. Laughlin in the Country Gentleman.

MEET SATURDAY

TO FORM COUNTY POULTRY ASSOCIATION.

IS MISSOURI HEN DAY

Purpose of Organization is to Promote the Poultry Industry in All of Its Branches.

Missouri hen day is Saturday, March 7, and on this day a meeting will be held in the court house in this city at 2 o'clock in the afternoon for the purpose of organizing a county branch of the Missouri State Poultry association. Judge J. H. Sawyer has been chosen by the state association as temporary president, and will call the meeting to order. The purpose of the organization is to promote the poultry industry in all its branches in this county in every possible way, and especially by co-operating with the state association and the state poultry experiment station at Mountain Grove.

The organization to be perfected will be composed of a president, a vice president from each township in the county and a secretary-treasurer. The annual meeting will be held at the same time as the county poultry show. The dues are 50 cents a year and each member will receive the monthly bulletin of the experiment station.

Branch organizations are to be perfected in one hundred of the one hundred and fourteen counties in the state on Saturday, and this will certainly mark a new era for the poultry industry of Missouri.

Everybody interested in poultry is invited to attend the meeting Saturday.

SMITH HEADS THE ELKS.

The Other Officers Selected at Their Annual Election Held Tuesday Evening.

The annual election of the Elks lodge was held Tuesday evening at the club house and was the best attended election yet held by that lodge. There were 127 members in attendance.

There was a spirited contest for the place of exalted ruler, Wilbur C. Smith being elected over Dr. Jesse Miller by a close vote to head the lodge during the coming year. W. H. Allen was selected.

WILBUR C. SMITH.

lected as esteemed leading knight over F. R. Marcell. Anselm Schumacher was chosen by acclamation for loyal knight. For lecturing knight there was a contest, the candidates being Dr. James Felix and Hal T. Hooker. Dr. Felix winning out. Dr. Frank C. Wallis as secretary, H. L. Raines as tyler, and Harry Hudson as treasurer, were elected by acclamation. For trustee for three years there were two candidates, Conrad Yehle and Fred P. Robinson, Yehle winning out. The other two members of the board of trustees are George L. Wilfley and W. F. Phares. E. E. Williams was selected as delegates from the lodge to the grand lodge to be held at Denver, Col., and Dr. H. L. Stinson was selected as alternate.

After the lodge a smoker was held in the basement of the club house. The new officers will be installed at the first meeting night in April.

Should Trim Your Hedges.

Now is the time for you to get busy and trim your hedges. In a little while you will be so busy with the spring work on the farm that you will be unable to trim them and will have to hire some one. There is a law requiring you to trim your hedges, so the word has gone out you better attend to it at once.

Property Sold.

C. Layman's property on North Main street was sold to M. T. Burgen of Ridgeway, Mo., who will take possession at once. He will move his family here within the next week. The deal was made through Holmes & Wolfert.

Henry Russell of near Hopkins was a business visitor in the city Wednesday.

HUNDRED AND TWO ADDITIONS.

Revival at First Baptist Church Had Big Crowd Tuesday Night—Nine Were Approved for Baptism.

With the nine persons received for membership at the First Baptist church Tuesday night, there have been 102 additions to the church membership since the meetings began. Quite a number of requests were made for prayer, and although it had been the thought of the pastors and ministers in charge to close the meeting this Wednesday night, a few days ago, they will not close if the interest continues as great as on Tuesday night.

A prayer service will be held Wednesday evening at 7 o'clock, and this will determine the attitude of the church toward the matter of continuing the meetings. The audience Tuesday night filled the church. Dr. Hale spoke of "The Great Proclamation." The services all through the series have been unusual.

REGISTER OF U. S. LAND OFFICE.

W. J. Wood, Former Nodaway County Boy, Received Appointment for Sundance, Wyo.

The following is from the Crook County Monitor of Sundance, Wyo., telling of the appointment of W. J. Wood as register of the U. S. land office at that place:

Word reached Sundance Saturday, February 21st, that Hon. W. J. Wood's appointment to the office of register of the United States land office at Sundance, had been confirmed by the United States senate.

This is welcome news to Mr. Wood's many friends in Crook county. W. J. Wood was born August 17, 1870, in Nodaway county, Missouri, and is the son of Rev. and Mrs. J. S. P. Wood, who now reside in California.

Mr. Wood came to Crook county in 1893, engaging in the cattle business near Alva. In the spring of 1903 he disposed of his ranch interests and moved to Sundance and formed a partnership with F. E. Rounds, present postmaster of Sundance, and entered the hardware business. Since that time he has been in various business enterprises.

In the fall of 1904 he was elected a member of the eighth Wyoming legislature on the Democratic ticket.

He had not been long in his seat in that session before he discovered that Senator Warren and his machine were using their political positions for their own benefit and against the interests of the state of Wyoming.

There were only three Democrats in the legislature, but this little band fought desperately for an investigation of Senator Warren's career. Needless to say the overwhelming Republican majority promptly suppressed all attempts of this character, and Mr. Wood incurred the undying enmity of Senator Warren.

At the unanimous request of his party, Mr. Wood consented to stand as a candidate for member of the twelfth legislature.

His handsome majority in this formerly Republican district, and his determined fight to prevent the re-election of Senator Warren are events of recent history. The people of Crook county have implicit confidence in the honesty and integrity of W. J. Wood, and the opposition to himself which he has created in certain quarters only endears him the more to their hearts, because they realize that every political enemy he has made has been made in his hard fight for better political conditions in Wyoming.

To quote a phrase once used in eulogy of Grover Cleveland: "We love him for the enemies he has made."

CLOSING OF TERM

WINTER TERM WILL CLOSE ON FRIDAY, MARCH 6.

SPRING TERM MONDAY

Commencement Exercises on May 26—President Richardson Back From Educational Meetings.

The winter term of the Normal school will close on Friday after a most successful session. The spring term will open on Monday, and the indications are that there will be a large enrollment.

With the closing of the winter term there are two graduates who have to be approved by the Normal board of regents, and who will receive their diplomas at the commencement exercises to be held at the close of the spring term. The baccalaureate sermon will be given on Sunday, May 24, and the class exercises on Monday, May 25, and the commencement exercises at the Normal auditorium on May 26. The close of the spring quarter is May 28.

President Ira Richardson returned Saturday from a trip to St. Louis, Chicago and Richmond, Va., where he attended educational meetings. At a meeting held in St. Louis Monday by a committee to take charge of the elementary school problem, it was decided to visit the city and rural schools and study their conditions within the next few months. The committee agreed that the elementary schools need better trained teachers and more of them. An expert will visit each district, who will make a survey of the teaching staffs, and will find what improvements are needed.

FOR AN OFFICIAL "ROOSTER DAY."

T. E. Quisenberry Would Set Aside June 6 to Swat Chanticleers.

"Rooster day," June 6. That is to be Missouri's newest holiday if T. E. Quisenberry, director of the Missouri state poultry experiment station, has his way.

Mr. Quisenberry's motto is "swat the rooster." He will present a resolution to the Carlott Buyers' association asking for Governor Major to set aside the first Saturday in June as "Rooster day." Missouri already has a "Hen day," March 7, when the conservation of that fowl is supposed to be studied.

On "Rooster day" the farmers and poultry dealers will be urged to kill, sell or separate the roosters from their flocks. "Absolutely millions of dollars' worth of eggs are spoiled every summer because they are fertile," Mr. Quisenberry said in his address on how to improve Missouri eggs and poultry. Hence his purpose in establishing a "Rooster day."

He gave these five rules, which he said, if followed, would increase the selling price of Missouri eggs several million dollars every year: Give the hens clean nests and plenty of them; gather eggs at least twice daily; keep eggs in a cool place; market eggs at least twice a week in warm weather; kill or sell all roosters as soon as the hatching season is over.

Left for Hot Springs.

Mr. and Mrs. E. A. Johnson and son of Colorado Springs, Col., who have been visiting for ten days in Maryville with Mr. Johnson's father, James M. Johnson, left Tuesday evening for Hot Springs, Ark., for a stay.

Walter Walker of near Skidmore was in the city Tuesday and took his wife home. She was operated on at St. Francis hospital for cancer.

TO GIVE A CONCERT.

Ravenwood Orchestra to Render Program at Opera House in That Town on Friday.

The Ravenwood orchestra will give a concert Friday night of this week at the opera house in Ravenwood. They have a good line-up of music, such as the sextet from "Lucia di Lammermoor," "Love's Enchantment," etc. They have secured two quartets to assist them, a ladies' quartet and a male quartet. These two organizations have been highly praised wherever they have appeared before the public.

The following is the program for the concert:

March, King Sol—Orchestra.
Waltz, You Were All I Had—Orchestra.

Cornet solo, Asleep in the Deep—H. T. McMullin.

A SERIOUS ATTACK

L. SLAGLE BADLY INJURED BY E. E. AND R. H. LAWSON.

THE CAUSE OF TROUBLE

Mrs. Slagle Stated That Her Husband Purchased Corn That Was Unfit For Use and Refused Some of It.

Lucien Slagle, a young farmer living three miles southeast of Ravenwood, was attacked Tuesday forenoon about 11 o'clock at his home by two other young farmers, E. E. and R. H. Lawson. One of the farmers, R. H. Lawson, is a neighbor of Mr. Slagle, living a mile distant.

Mr. Slagle was so badly injured that he was brought to St. Francis hospital Tuesday evening on the Wabash train. He was accompanied by Dr. D. J. Hunterson of Ravenwood, Mrs. Slagle and her father, and Andy Slagle. Dr. G. A. Nash, Dr. F. M. Ryan and Dr. Hunterson dressed the man's wounds. His right jaw bone was fractured in two places and he was badly bruised from his chest to the top of his head. It is the opinion of the physicians that were called that brass knuckles were used in the fight.

Several stories are told as to the probable cause of the trouble. The story given to The Democrat-Forum by Mrs. Slagle is that her husband agreed some three or four weeks ago at a sale held by the Lawsons, to buy a certain amount of corn they offered if it proved good as was represented. Mr. Slagle went after a load of the corn and brought it home. He found about half of it decayed and unfit for use, but as he was in need of corn for his horses he picked out what was good and began to look elsewhere for corn. He was approached by the Lawsons in the matter and he informed them that he could not take any more of the corn because it was not good. He offered a check for the wagon load he had taken, and the Lawsons refused to take it. Mrs. Slagle feared trouble and stationed herself at the window of their residence to watch them, especially after the arrival of E. E. Lawson, who lives five or six miles from their home. He arrived about an hour after his brother came. She could not see her husband very well as he was standing on the other side of the Lawson wagon, but when the two men sprang from the wagon and the men clinched, she ran from the house to her husband's assistance. As she ran screaming around the wagon she found her husband lying on the ground. She knew by his appearance that he was badly hurt. She asked the Lawsons to run and phone for a doctor, but they told her she need not make such a fuss, that her husband was not badly hurt. Then she asked them to help her get him in the house, but they got into their wagon and drove off. Mrs. Slagle assisted her husband into the house, and when about half way there the hired man, attracted by her screams, came to her assistance. After Mr. Slagle was safe in the house the hired man phoned for Dr. Hunterson, who came as soon as possible. Dr. Hunterson then summoned Dr. W. P. Stuckle of Clyde, and the two dressed his wounds temporarily and phoned to the Maryville physicians concerning the case and to be ready to care for him that evening at the hospital in Maryville.

The Maryville physicians think that Mr. Slagle will make a good recovery from his injuries unless pneumonia sets in. His chest was badly bruised up.

Another story as to the cause of the trouble is that Mr. Slagle secured a lease on the farm that E. E. Lawson had been living on and was wanting it for another year.

Reversed by Court.

In a list of opinions filed in division No. 1 of the supreme court today was that of the Chicago Great Western Railway company vs. Kemper et al., defendants Holtman, app. Reversed and remanded with directions.

Joe Smith of Ravenwood was a business visitor in the city Wednesday.

PICKERING WOMAN DEAD.

Mrs. Oliver Rickard Died After a Three Years' Illness—Funeral Arrangements Not Made.

Mrs. Oliver L. Rickard, living one and a half miles east of Pickering, died Wednesday noon at the family home after a three years' illness of a complication of diseases. The funeral arrangements have not been made.

Mrs. Rickard was born August 11, 1864, on a farm east of Pickering. Her maiden name was Nannie Belle Hewitt. Her father, W. J. Hewitt, was a pioneer resident of Nodaway county. His death occurred six years ago. Mrs. Rickard was married to her husband January 18, 1881, at Pickering. For five years following their marriage they lived at Centralia, Kan., but since that time they have lived in Pickering.

Mrs. Rickard became a member of the M. E. church when she was 15 years old, and lived a consistent Christian life. She was the mother of eleven children, seven of whom are living. They are J. E. and Marion L. Rickard and Mrs. George Swaney of Pickering; Hazel Mildred, LaVerne, Roland and Bruce Rickard, at home with their father. Her mother, Mrs. Rebecca Hewitt of Pickering, six sisters and three brothers also survive.

Mrs. B. F. Bailey left Tuesday evening for Blue Mound, Kan., to make her home. Mrs. Bailey has been visiting here with her sisters, Mrs. Frank Knabb and Mrs. Harry Hudson. Her home has been at Clarks, Neb.

O. O. Wallace and family of Kellart, Ia., will come to Maryville Wednesday evening on a visit with Mr. Wallace's parents, Mr. and Mrs. John Wallace. Mr. Wallace has been station agent at Kellart for some time.

Al. Crane, L. O. Staples, Sam Jones, Frank and James Ware and Edwin Colwell of Burlington Junction were Maryville visitors Wednesday.

Mark Cummings left Wednesday morning for Bonner Springs, Ark.

Aaron Felix attended the Alexander sale at Orsburg Wednesday.

CALLS IT KINGDOM OF SHERIFF JEFF FARR

Witness So Characterizes Huerfano County, Colorado.

Walsenburg, Colo., March 4.—The strike investigation in Huerfano county was held here.

Counsel for the strikers called Fred R. Hennes to describe mine conditions which were alleged to have entered into the cause of the strike. He said he had had long experience as a miner; that in the last ten years the companies steadily reduced the amount of work for which pay was allowed. He declared that while he was superintendent of a mine that a welsher employed by the company's president was cheating the miners.

On questions by Hynes, the witness admitted he had known the welsher was robbing the men, but did not discharge him until he found he also was robbing the company.

Sheriff Jefferson Farr heard Huerfano county described as "The Kingdom of Jeff Farr." Major C. P. Conn, a pioneer lawyer and farmer of Huerfano county, was the witness whose testimony focused the attention of the committee upon the charge of political interference by coal operators.

The witness said he believed the county was under the control of the Colorado Fuel and Iron company.

When the witness used the term "The Kingdom of Jeff Farr," Judge J. C. Northcutt for the operators asked: "Did you ever hear anybody but yourself so characterize Huerfano county?" "I think I heard you so characterize it," flashed the witness.

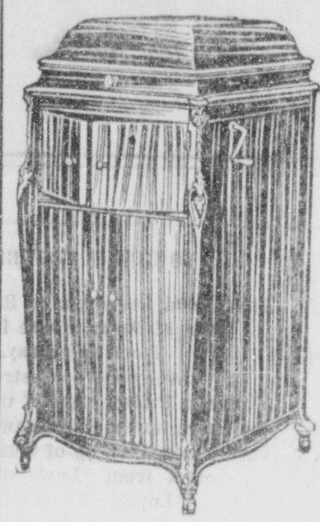

30 YEARS FOR STEALING KISS

Negro Assailant of White Girl Is Given Limit.

Los Angeles, March 4.—Convicted of robbery for having stolen a kiss from a white girl, Charles H. Gayton, a young negro, was sentenced to thirty years in Folsom prison by Judge Willis of the criminal department of the superior court.

The charge on which the negro was tried alleged that he held up Miss Daisy Stagwall and relieved her of a dime, all the money she possessed. Then he compelled her under threat of death to kiss him, after which he gave back her 10 cents.

Gayton was alleged to have subjected six other white girls to similar treatment. When he pleaded for probation for the sake of his wife and children, Judge Willis cut him short with the declaration that such a man was too dangerous to be allowed at large.

DO NOT BE MISLEAD

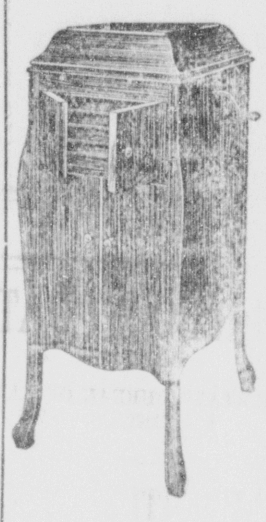

YOU know tone and quality when you hear it, and no man can assume that he knows it all, and can make YOUR decision as to what Talking Machine YOU should buy.

There are more Victrolas in the best homes of Maryville than there are of any other make. Why? Because Maryville people are musical. They know fine tone quality when they hear it. They know that the Victrola is the only Talking Machine that receives recognition and endorsement of people of refined musical taste and of the leading musicians of the world—they know that Caruso, Melba, Tetrazzini, Farrar, Amato, and all other leading artists of the world make records EXCLUSIVELY for the Victor. Why? Because they want their renditions recorded in the most perfect manner, for it is by these records that they are judged, more than by their OPERATIC APPEARANCE.

Call and let us show you the Victrola. When you once appreciate what it will bring to your home, that it will last a life-time, that they can be purchased on such reasonable prices and terms, you would not be without one. We have Victrolas from \$15.00 to \$200.00

GRAIN BOARDS ARE SCORED

Greeley Says They Are Too Used to Fix Price of Wheat.

URGES FEDERAL ACTION TAKEN

Congressman Says Elevator Men Sell to Themselves Grain Which They Hold as Agents for Farmers, Defrauding Growers Out of Millions.

Washington, March 4.—Samuel H. Greeley, for more than twenty years a member of the Chicago board of trade, speaking on Representative Manahan's resolution to authorize an investigation of the charges that a monopoly existed within the grain exchanges of Chicago, Duluth and Minneapolis, founded upon warehouse operations and future trading, characterized the Chicago board of trade as a "giant of fictitious wheat transactions" and the weapon of a price-controlling monopoly. Appearing before the house rules committee in behalf of several wheat growers' organizations of the northwest, Mr. Greeley urged federal action against an alleged monopoly maintained by the public warehouse men of Chicago and other market centers.

Organization Built Up. Through members on the Chicago board and control of the storage of grain, the warehouse "trust," he declared, had built up an organization "which controls the wheat prices of the world more than any other agency, except war scares and financial panics."

The key to the situation was dealing in futures, where no delivery was intended, he declared, and in this business the Chicago board of trade outstripped the other markets of the world combined.

Evidence was submitted to the committee designed to show that the warehouse "trust" began business in 1887, and had steadily increased in power until today the Chicago board was "throttled and controlled by the public warehouse men."

Change in Rules.

Mr. Greeley read into the record a recent change in the rules by the board removing certain penalties prescribed against warehouse members. This he said, was done at the order of the warehouse men's combination.

It was said that if the hearings bring out sufficient evidence the subject probably will be referred to the committee on agriculture, with recommendations that it draft legislation to remedy the alleged evils.

Mr. Manahan charged that elevator men, by selling to themselves grain they held as agents for farmers, defrauded the wheat growers of the Dakotas and Montana alone of \$10,000,000 a year.

SUFFRAGISTS WARN DEMOCRATIC PARTY

Women Throw Down Gauntlet to House Committee.

Washington, March 4.—The house judiciary committee heard all phases of the woman suffrage question discussed by suffragists and anti-suffragists. The war of words was accompanied by cheers, jeers, hisses and applause.

Deserting sentimental phases of the suffrage argument, Mrs. Crystal Benjamin Benedict and Mrs. Mary Beard, New York lawyers, threw down the gauntlet to the Democratic party in no uncertain terms, warning the committee that the political wrath of the 4,000,000 women in the suffrage states would be visited upon the party unless favorable consideration was given the constitutional suffrage amendment.

Anti-suffragists told the committee that woman suffrage would be harmful "not only to women, but to the country." And at the conclusion of the hearings Dr. Mary Walker, trousered and silk-hatted, presented to the committee what she called "the crowning constitutional argument" to show that women already have the right to vote under the constitution.

In the meanwhile a vote on the suffrage amendment was continuing in the senate.

SEE IF THE CHILD'S TONGUE IS COATED

Mother! Don't Hesitate! If Cross, Feverish, Constipated, Give "California Syrup of Figs."

Look at the tongue, mother! If coated, it is a sure sign that your little one's stomach, liver and bowels need a gentle, thorough cleansing at once.

When peevish, cross, listless, pale, doesn't sleep, doesn't eat or act naturally, or is feverish, stomach sour, breath bad; has stomach ache, sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again.

You needn't coax sick children to take this harmless "fruit laxative," they love its delicious taste, and it always makes them feel splendid.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeits sold here. To be sure you get the genuine, ask to see that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.—Advertisement.

members of the Circle. The devotional service was led by Mrs. Charles McNeal. Roll call was responded to with names and facts of "Pioneers of Maryville," that proved quite interesting. As two members were unable to respond with their papers at this time some good readings were given. Mrs. Cook, the hostess, read a splendid story of "The Titanic," from its building until its destruction. A reading by Mrs. M. D. Kemp on "Modern Education," an account of a grandmother's visit to the school attended by her young granddaughter, was excellent, and she was prevailed upon to respond with an encore number, "Slippers for the Footless Minister," after the delightful luncheon was served. The president, Mrs. W. O. Garrett, conducted a very interesting round table discussion on Maryville's advancement and improvement since the beginning of the M. I. Circle.

First Showing of Authentic Spring Fashions

You may not be fully posted as to the latest correct styles in Men's Clothes; most men don't worry about that, for when you come here to look for a suit or raincoat, we'll show you the late models designed for you by Hart, Schaffner & Marx. That means that you can rest assured of being dressed in the most approved and correct styles,

for these makers are style creators. They not only produce the most fashionable models in the world but they set the styles for a good many other concerns. You'll see also some interesting changes in the trousers, though not anything very marked. The soft fronts of the coats are a special feature of Hart, Schaffner & Marx work this season, they stay soft and keep their shape always, it's more than can be said about many soft front coats you'll see.

TO ADDRESS CONGRESS

Wilson Will Make Plea for Repeal of
Tolls Exemption.

Washington, March 4.—President Wilson will personally address a joint session of congress tomorrow, advocating the repeal of the clause in the Panama canal act which exempts American coastwise shipping from the payment of tolls.

White House officials arranged with the majority leaders in both houses for a joint session at 12:30 p. m. tomorrow. The president has prepared a brief address in which he sets forth his opinion that congress should reverse itself and keep the obligations of the Hay-Pauncefote treaty, which, he believes, were violated by the Panama canal act.

Habeas Corpus Writ to Be Used
to Liberate Refugees.

ARE HELD WITHOUT WARRANT

Lawyers Acting for Mexicans Interned at Fort Bliss Will Approach State Department Before Beginning Court Proceedings.

El Paso, Tex., March 4.—Representatives of the Huerta government are preparing to institute habeas corpus proceedings to obtain the liberation of the 5,000 Mexicans who fled to the United States after the battle of Ojinaga, and who are interned at Fort Bliss. They contend that there is no warrant of international law or treaty under which they can be held.

Harris Walthall and H. R. Gamble, lawyers, are acting for the Huerta government under the immediate direction of Miguel E. Diebold, Mexican consul general at large.

"I assume the clause on which these Mexicans are being held is the one in The Hague treaty which states that if a group of belligerents from one country warring with another takes refuge in a third, the third country must intern them for the period of the war," said Mr. Walthall.

"The United States and Mexico are signatories to the treaty, but that instrument contains no reference to a situation like the present, where the conflict is internal. Mexico is not at war with any other country and yet that was the only contingency foreseen by the authors of The Hague treaty."

"Before going into court we will approach the state department on the subject. If we fail there we will apply for a writ of habeas corpus, for that right is suspended only in time of war or where martial law has been declared. Neither condition exists here."

Grey's Speech Chief Factor.

Washington, March 4.—Great Britain's pronouncement through Sir Edward Grey that the United States was in no way responsible for the recent execution at Juarez of William S. Benton, a British subject, and that the American government would not be asked to resort to force as a result of the incident was the chief factor in the Mexican situation.

President Wilson, in a conference with Sir Cecil Spring Rice, the British ambassador here, and Sir Lionel Carden, the British minister to Mexico, is understood to have expressed his approval and appreciation of the friendly sentiments uttered by the British foreign secretary in the house of commons. Tension which had been felt here over the killing of Benton arose largely because it was believed Great Britain might press the United States into taking drastic steps to secure reparation.

The British view that the United States is not obligated to demand reparation for Great Britain relieved this tension to some extent, although it is clear that the Benton incident has developed an intention on the part of the American government to take a more aggressive attitude toward the contending factions in Mexico.

Carranza Appoints Investigators.

Nogales, Sonora, March 4.—A commission to investigate the Benton case was appointed by General Carranza. The decision was taken after a long session of the provisional cabinet.

BEGINS RACE WITH DEATH

Stricken Millionaire on Special Train
Bound for Rochester, Minn.

Los Angeles, March 4.—In a race with death, C. W. Post, millionaire manufacturer of Battle Creek, Mich., passed through here in a special train bound for Rochester, Minn., for an immediate major surgical operation. He was accompanied by Mrs. Post and a physician who attended him at his winter home at Santa Barbara.

Mr. Post arrived at Santa Barbara a month ago, broken in health. His condition steadily grew worse and attending physicians declared his only hope lay in an immediate operation. Doubt was expressed, however, that he could survive the trip to Rochester.

Mrs. E. J. Williams visited in Pickering Wednesday afternoon with her mother, Mrs. Solomon Clark.

Mrs. G. W. Turner left Tuesday morning for a visit in Kansas City, after which she will go to Sayre, Okla., on a visit to her son, W. B. Turner, and Mrs. Turner.

INDIGESTION OVERCOME.

Overcome by Simple Remedy.

Hurried and careless habits of eating, irregular meals and foods that do not harmonize, tend to weaken the digestive organs and result in different forms of stomach trouble.

If you are one of the unfortunate who have drifted into this condition, eat simple foods only, slowly, regu-

larly and take Vinol, our delicious cod liver and iron tonic.

Mrs. H. J. Smith, Thomasville, Ga., says: "I suffered from a stomach trouble, was tired, worn out and nervous. A friend advised me to take Vinol. My stomach trouble soon disappeared and now I eat heartily and have a perfect digestion and I wish every tired, weak woman could have Vinol, for I never spent any money in my life that did me so much good."

The recovery of Mrs. Smith was due to the combined action of the medicinal elements of the cod's livers—aided by the blood making and strength creating properties of tonic iron, which are contained in Vinol. We will return the purchase money every time Vinol fails to benefit. Crear-Henry Drug Co., Maryville, Mo.—Advertisement.

The OVERLAND is the BEST CAR for the AMERICAN FARMER

Here's a car practically designed for the American farmer. It meets his needs as exactly as if it were made to sell to him alone.

Dependability under all conditions. Strength to meet every reasonable emergency. These are the qualities the farmer must have. His remoteness from town and the roughness of country roads demand it.

These are also the qualities which stand out predominant in the Overland Car.

This is no idle claim. Remember—back of the Overland Automobile lie ten years of success—ten years of growing prestige.

Its name and fame must be familiar to you. You must know at least one Overland owner. (There are 100,000 users now.) Put the question to him.

To strength and dependability—add economy.

Economy in price because you pay \$350 for a \$1,250 car.

Economy in operation. No car could be less greedy of gasoline and oil.

There is a reason for all this—a reason to be found in the spirit of the men behind the Overland Car.

A spirit that demands a perfect motor car, but also that this perfect car be made on so big a scale that it can profitably be sold at a low price.

This is why, added to the practical qualities of strength, durability, economy, you get a car second to none for Beauty.

Roomy—rich—magnificently upholstered, finished like a piano. -Every accessory the best possible for its purpose.

Ask any experienced motorist if these specifications do not match those of any \$1250 car.

FEDS PREPARED TO FIGHT

Glimore Warns Tener and Johnson to Leave Men Alone.

Chicago, March 4.—Word was sent to the presidents of the National and American baseball leagues that the Federal league was prepared to fight for fair treatment and would meet in kind any efforts to lure away players who had a contract with the new league.

In a telegram addressed to John K. Tener, president of the National league, and to Ban B. Johnson, head of the American league, President Glimore of the Federals threw down the challenge which may result in another baseball war. The message read:

"Indisputable evidence tells us that some of your clubs are endeavoring to sign Federal league contract players. If you do not stop such methods immediately we will withdraw our policy of fair play and give you a battle at your own game."

ZANG HELD WITHOUT BAIL

Slayer of Alleged Murderer Bound Over to Grand Jury.

St. Louis, March 4.—Henry Zang, who shot and killed Wesley (Red) Simon three hours after the latter was put on trial for a murder of another gangster, was bound over to the grand jury by the coroner's jury, which heard Zang's own story of the shooting.

Before the inquest was opened each of the 350 spectators was searched for weapons by policemen on hand to prevent another killing.

Zang will be held without bail pending the action of the grand jury.

Butter Trust Case Goes Over.

Chicago, March 4.—Hearing of the Elgin board of trade case before Judge Landis in the federal court here may never come up. District Attorney James H. Wilkinson left for New York and Washington and it was understood the question of a compromise of the government's case against the alleged improper butter price fixing methods of the Elgin board was the principal object of his trip. The hearing was continued two weeks.

We are now ready for your spring work. Phone me your order. A. D. Arnett.

Facts About Western Canada

The farmer of today is recognized as a business man and puts himself on the pay roll at a salary beyond the dreams of the average man in the city, and he pays dividends on his investment.

Nowhere is he in a better position to realize the full profit of this condition than in Western Canada, with the rich productive soil at small cost and to 100 per cent on his investment and obtaining the independence that cannot belong to any other business man.

The 433,000,000 bushel grain crop of Saskatchewan and Alberta yielded \$235,000,000 to the farmers last year. This represents the partial yield of less than 15 per cent of the available land under cultivation. Millions upon millions of acres of the finest arable land in the world awaits the plough—YOUR PLOUGH.

The annual increase in the world's population establishes an ever-growing market, and nowhere can you find more ideal conditions for grain raising than Western Canada affords. Grain growing, however, is but one item in the success of the Canadian farmer.

Our first excursion to this country of opportunity will be April 7th. For rates and terms see

Tribute Paid to Goethals.

Washington, March 4.—Washington paid tribute to Colonel George Washington Goethals, builder of the Panama canal. The occasion was the annual banquet of the National Geographic society, with Colonel Goethals present as the guest of honor and to receive from President Wilson a special gold medal awarded him by the society in recognition of his achievement.
